FOR IMMEDIATE RELEASE

### **Weathered Stone™: A Home Makeover Solution**

*Resurface Existing Floors, Countertops, Walls, Shower Stalls, Sinks, and Fireplace Surrounds with Weathered Stone™. Weathered Stone™ provides a cost effective makeover solution for homeowners who don't want to disrupt their homes with the removal and replacement of outdated interior surfaces.*

**F PRESS RELEASE** Home Remodeling just got easier with Weathered Stone™. Weathered Stone™ **cost effectively** and **time efficiently** resurfaces practically all solid interior surfaces.

“Weathered Stone™ can be installed over a multitude of surfaces with minimal prep work. We have installed over bare sheetrock, painted sheetrock, textured walls, walls with small holes, wood paneling (without filling in the grooves), cinder block, brick walls, concrete, plastic laminate, inside cultured marble sinks, metal, floors, and much more. Weathered Stone™ has a Class-A fire rating, the product is safe to use on gas or electric fireplaces”, said Sean Howard, President and Inventor of Weathered Stone™.

The use of Weathered Stone™ for remodeling eliminates the need for sanding and sawing. Weathered Stone™ becomes pliable during the installation process, and dries after applied to a solid surface. The result is a sheet of stone that can be molded, bent and shaped around any interior surface. All adhesives are water based, making installation simple and time efficient. The final step of grouting the seams gives the installed product added depth and texture.

Weathered Stone™ the World's First Bendable Stone is a hand made stone and leather replica covering that is only 1/32nd of an inch thick. Weathered Stone™ is produced on a canvas backing; the texture is primarily plaster, and has 15% additives for strength and durability. The product is then cut, cracked, and colored by hand.

-more-

Weathered Stone™ has 22 standard colors, and custom colors are available. The product is manufactured in pre-cut sizes, and can easily be cut down to any size or shape.

The manufacturer warranties the product for 20 years on all vertical surfaces. Floor and countertop applications are guaranteed for 10 years..

Howard traveled the country installing commercial wall coverings and hand painting faux finishes. Howard merged wall coverings and faux finish techniques to create Weathered Stone™. Weathered Stone™ has been featured in multiple news publications as well as many showcase and parade homes.
