When entering this European Country home, you will be taken to a place of elegance and unique character. Creating an ambiance of old world charm, replica stone covers the walls, adding textural warmth. Brick red, aqua and golden hues set the palette throughout this home. The rug, saturated in color, supplies an inviting feel that is also duplicated in the artwork of the Chateau de Breun. Black iron lamps, generating soft light for entry, flank a handsome cherry twelve-drawer chest. A full-length mirror on the angled wall reflects the beauty of the console and serves as a last minute glimpse for night out.
